(54) Title: A BOX FOR PACKAGING A VOTING MACHINE

(57) Abstract: The present invention relates to a box (10) for packaging electronic voting machines, which guarantees safety thereof, protecting it against weathering, impacts, corrosion, moisture, attempts to tamper with it, and that has a long useful life, so that it can be used several times. The box according to the present invention is made from reinforced plastic, which comprises an identification means (20) in at least one of its faces, accommodating the voting machine in an optimized way.
